

# NRV HOUSING STUDY

## PROVIDING INFORMATION AND DATA TO GUIDE FUTURE DEVELOPMENT

The NRV Housing Study compiles citizen input and housing market data to provide a detailed understanding of the regional + local housing market and housing issues in New River Valley communities and develops tailored strategies that address both regional and local housing needs. The NRV Housing Study will serve as a strong foundation for the planning of future employment, housing, or infrastructure development activities, providing localities and developers with data and strategies that help to guide their investment in housing production and redevelopment projects.

### OUTCOMES

- Housing Market Study
- Community Housing Needs Dialogue
- Regional and Locality Specific Strategies

A STUDY BY THE  
new river valley  
regional commission

# ORGANIZATION

## July 2018 - December 2018

### Needs Assessment & Market Analysis
