### Regional Hazard Mitigation Plan Available for Public Comment

The draft New River Valley Hazard Mitigation Plan is available for public comment. A series of open houses will be held throughout the New River Valley to encourage citizen involvement in the plan. In Montgomery County, the meeting will be on May 22, 5-7 p.m., at the Montgomery County Government Center, 755 Roanoke St. in Christiansburg.

The New River Valley Regional Commission (NRVRC) will hold five open houses where information about the region's natural hazards, including mapping and plan drafts will be on display. Citizens are encouraged to review them, ask questions and add their comments to review process. A short overview presentation will be made at the start of the open house and an hour later.

Four other meetings will be held over the next few weeks in Floyd, Giles, and Pulaski Counties as well as Radford.

The plan addresses natural hazards affecting the region, including flooding, severe weather, and geological hazards such as rockfall. The region includes four counties – Floyd, Giles, Montgomery, and Pulaski – and the City of Radford. A regional plan was first developed in 2005 under the guidance of the Federal Emergency management Agency and the Virginia Department of Emergency Management and as required by federal legislation. The plan is updated on a five-year frequency with the latest available data.

More information about the planning process is available at <http://nrvc.org/hazardmitigation> or call 540-639-9313.

### Education & Workforce Development

Your Chamber of Commerce has heard that the low unemployment rate has a negative impact on economic development. We also understand that we have many GREAT companies in our community that have a waiting list of potential candidates.

What is it that makes those companies different; Better? Easier to recruit employees?

Your Chamber is launching a program to help identify those BEST companies to work for in our community and share the secrets so we can all become better places of employment. ALLIN2 talent recruitment and retention.

### Regional Hazard Mitigation Plan Available for Public Comment

Radford, VA – The draft New River Valley Hazard Mitigation Plan is available for public comment. A series of open houses will be held throughout the New River Valley to encourage citizen involvement in the plan. The meetings in Christiansburg and Radford will be held on the following dates and locations:

- May 22, 5:00 to 7:00 pm, at the County Government Center, 755 Roanoke Street, Christiansburg
- May 25, 4:30 to 6:30 pm, at City Hall Council Chambers, 10 Robertson Street, Radford

The New River Valley Regional Commission (NRVRC) will hold five open houses where information about the region's natural hazards, including mapping and plan drafts will be on display. Citizens are encouraged to review them, ask questions and add their comments to review process. A short overview presentation will be made at the start of the open house and an hour later.

Three other meetings will be held over the next few weeks in Floyd, Giles, and Pulaski Counties.

The plan addresses natural hazards affecting the region, including flooding, severe weather, and geological hazards such as rockfall. The region includes four counties – Floyd, Giles, Montgomery, and Pulaski – and the City of Radford. A regional plan was first developed in 2005 under the guidance of the Federal Emergency management Agency and the Virginia Department of Emergency Management and as required by federal legislation. The plan is updated on a five-year frequency with the latest available data.
